PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>The topic of the research is attractive, practical, and contemporary. A nicely written paper, well-organized, streamlined, and fully supported. The abstract is good, it represents the paper in its parts. Keywords are acceptable The introduction and background are appropriate, with good organization of thoughts, and streamlined ideas. The paper used relevant and updated references. The flow of mathematical equations' presentation and reasoning is smooth and clear. The objective of the paper is achieved from the mathematical reasoning point of view. Though the practical/numerical simulation is clear, it is highly recommended that the authors add a more elaborate explanation of the implications to both kinds of industries proposed for the model. Minor proofreading is needed</p>	
Optional/General comments
