Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalarrb.com/index.php/ARRB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Abstract You must adapt the abstract, indicating the objective of the article, the bibliographic sources consulted, and the main results found on it, in the review. -It should say which bibliographic sources were used for the review -In many paragraphs, the citations of the references that support the approaches do not appear, An essential aspect in an article review. -Figures taken from other sources should reflect these, as done in Fig.4.</p> <p>Conclusions. I suggest shortening the conclusions. They are very long.</p> <p>References -I suggest that the bibliography used be updated and the titles of the journals adjusted according to international rules. - In some citations the year of publication of this, appears at the end.</p>	
Optional/General comments	You should review the entire article again.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
