

Review Form 1.6

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_90991
Title of the Manuscript:	ETHNOMYCOLOGICAL STUDY OF MACROFUNGI FROM MPANGA FOREST IN MPIGI DISTRICT, CENTRAL UGANDA
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalarrb.com/index.php/ARRB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	-----	
Minor REVISION comments	<p>The term sp. cannot be in "italics", correct this biological nomenclature. Only the genus and fungal species should be in italics.</p> <p>It is advisable in this type of study, to make some comments and quotes about the history of fungi in the region or even the beginning of manifestations in relation to the study of these organisms.</p>	
Optional/General comments	<p>It would be interesting and I suggest that the authors take a look at the article entitled: Neotropical Micodiversity of Mato Grosso, Central Region of Brazil: Ethnomicological Aspects and Systematic Research of the Literature. Where the authors carried out a comprehensiveness on ethnomicological characteristics of fungi, published in this year 2022.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
