

Review Form 1.6

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_85067
Title of the Manuscript:	Density Current Simulations In Cold Fresh Water And Its Cabbeling phenomenon: A Comparative Analysis With Given Experimental Results.
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalcjust.com/index.php/CJAST/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	You can include some required parts from your previous paper to make it easier for authors to follow your current work. Overall, nice and practical study.	
Minor REVISION comments	Some typo which may need to be fixed to improve the language of the paper such as "The behaviours as described here shows" or "the raging columns of the Kelvin-Helmholtz instabilities causes", "The results here shows" and so on or some sentences are hard to understand and can be written in simpler language such as" Note that the previous experimentally studied cases that the initial density difference is usually by adding salt to the fluid on either side of the barrier, so as to produce a denser fluid".	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
