Compulsory REVISION comments	The purpose of this paper was to demonstrate the best stratification rule under two allocation methods in the case of separate and combined ratio estimators. The abstract, introduction, material and method, result and conclusion are clearly written. However, the following are my comments: <ol style="list-style-type: none">1. the introduction should be reconstructed stating what has been done in the past, problem statement, the motivation and aim and objective of the present study.2. Literature review section should be included3. The materials used in the work are outdated. Recent materials should be reviewed.4. The methods used in the work was not discussed5. The author should create a conclusion/future research section	
Minor REVISION comments		
Optional/General comments	The study carried by the author is interesting if the comments are reviewed
