

Review Form 1.6

Journal Name:	Chemical Science International Journal
Manuscript Number:	Ms_CSIJ_90591
Title of the Manuscript:	Physico-chemical characterization and estimation of antimicrobial activity of modified aspirin in the form of nano-organometallic compounds
Type of the Article	Original research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalcsij.com/index.php/CSIJ/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	NIL	
Minor REVISION comments	NIL	
Optional/General comments	The authors have carried out extensive work and also given all the detailed data related to the work which supports and confirms the result. However, lots of work, large no. of complexes, their supportive documents have made the paper very complex and clumsy. However, the graphical representation rather than the tabular depiction would be more attractive. Please make the work more simpler, give the optimised complex and its all the characterisation parameters along with the antimicrobial study data.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
