### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	The author describes the Hepatitis B Virus and behavioural risk among Blood donors (Gabon) in this manuscript. However, there are several concerns that should be addressed. There are many grammatical and format problems throughout the manuscript. The prevalence of HBV was higher among males should be included in the Abstract. The Risk factors of HBV infection in the Result part were not completed. Table 2 such as Residence, less than graduate should be included.	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
