

## Review Form 1.6

|                          |   |
|--------------------------|---|
| Journal Name:            | <a href="#">International Journal of Environment and Climate Change</a>   |
| Manuscript Number:       | Ms_IJECC_89251  |
| Title of the Manuscript: | EFFECT OF ORGANIC, INORGANIC AND BIOFERTILIZERS ON GROWTH, YIELD AND QUALITY OF CLUSTER BEAN ( <i>Cyamopsis tetragonaloba</i> L.) |
| Type of the Article      |   |

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

**Review Form 1.6**

**PART 1: Review Comments**

|                                     | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| <b>Compulsory</b> REVISION comments | <ul style="list-style-type: none"> <li>❖ The article is well written and has been covered the impact of organic, inorganic, and biofertilizers on the growth, yield, and quality of cluster beans.</li> <li>❖ Both additions and corrections were outlined in red color.</li> <li>❖ Many of the words outlined in yellow should be deleted.</li> <li>❖ The abstract lacks the objective of the study, so it should include.</li> <li>❖ It is preferable to rewrite the first paragraph of the introduction to avoid repetition.</li> <li>❖ The numbers 1-9 are written as a number.</li> <li>❖ The introduction lacks the objective of the study, so please include it.</li> </ul>   |   |
| <b>Minor</b> REVISION comments      | <ul style="list-style-type: none"> <li>❖ It is better to standardize the names of journals in references and write them as a standard abbreviation for journals. The author(s) can check the shortcut at <a href="http://images.webofknowledge.com/WOK46/help/WOS/T_abrvjt.html">http://images.webofknowledge.com/WOK46/help/WOS/T_abrvjt.html</a> or <a href="http://www.journalseek.net">www.journalseek.net</a> etc.</li> <li>❖ Adding line numbers may be useful for reviewing.</li> <li>❖ Grammar: Need Some revision.</li> </ul>   |   |
| <b>Optional/General</b> comments    | <ul style="list-style-type: none"> <li>❖ <b>In general</b>, the paper is relevant and instructive, and the paper is well written</li> <li>❖ <b>Title:</b> The title properly explains the purpose and objective of the article.</li> <li>❖ <b>Abstract:</b> The abstract offers an accurate summary of the paper, and the language used in the abstract is easy to read and understand. However, it lacks the objective of the study.</li> <li>❖ <b>Introduction:</b> The authors provide sufficient context on the subject and purpose of this study, However, it lacks the objective of the study.</li> <li>❖ <b>Results and discussion:</b> The findings are presented clearly, the authors provide reliable test results, and each finding is supported by adequate proof.<br/>To avoid repetition, please replace: PSB could be due to the greater availability of nutrients in the soil and resulted in better growth and development which might be attributed to the better mobilization of phosphorus and increased allocation of photosynthates towards the economic parts and also hormonal balance in the plant system. These findings are in conformity with the findings of, Ramana <i>et al.</i>, (2011). Replace with: <b>The higher mobilization of phosphorus and increased allocation of photosynthates to the economic portions as well as hormonal balance in the plant system may be responsible for PSB's increased nutrient availability in the soil and the better growth and development that occurred. These results are consistent with those of Ramana <i>et al.</i>, (2011).</b></li> <li>❖ <b>Conclusion:</b> The research offers sample data for the authors to draw conclusions.</li> </ul> |   |
