General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I suggest that you need to use APA format, quote in the paragraphs, not at the end of the page. You can mention how can you did your research of information, it is not as clear to me.	
Minor REVISION comments	You can add you conclusions in your abstract.	
Optional/General comments	I think this paper could be use has a frame work for other experimental research, you have very wide frame work, if the journal accept this kind of articles is good enough but if not I only can be a frame work for other kind of research at least a descriptive research because this paper is like an essay.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
