

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_90177
Title of the Manuscript:	Effect of combined application of herbicides on weed flora, Yield attributes Yield, and Profitability of chickpea (Cicer arietinum L.)
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ul style="list-style-type: none"><li>• Introduction part is too lengthy it may be concised</li><li>• Predominant weed flora observed in experimental field is to be mentioned in the results</li><li>• B:C ratio to be calculated based on gross return and cost of cultivation as per formulae</li></ul>	
<b>Minor</b> REVISION comments	<ul style="list-style-type: none"><li>• Phytotoxicity score may be given as chickpea is highly sensitive for weedicides</li></ul>	
<b>Optional/General</b> comments	<ul style="list-style-type: none"><li>• Good work on identification of suitable Po E herbicides on chickpea</li><li>• After incorporating the corrections the article may be published</li></ul>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
