

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_90567
Title of the Manuscript:	Sub-soil nitrogen content as influenced by long-term manuring and its relationship with nitrogen availability and productivity of a rice-rice cropping system in Eastern India
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Grammar should be reviewed Check journal formatting Add following references Lal B, Gautam P, Panda BB, Raja R, Singh T, Tripathi R, Shahid M, Nayak AK. Crop and varietal diversification of rainfed rice based cropping systems for higher productivity and profitability in Eastern India. PLoS One. 2017 Apr 24;12(4):e0175709. Majhi P, Rout KK, Nanda G, Singh M. Long term effects of fertilizer and manure application on productivity, sustainability and soil properties in a rice-rice system on Inceptisols of Eastern India. Communications in Soil Science and Plant Analysis. 2021 Aug 6;52(14):1631-44.	
Minor REVISION comments	Nothing	
Optional/General comments	- The idea research is good and worth studying. - The researcher tried in his research to confirm and reach the results to the balanced use of mineral fertilizers with organic fertilizers, especially nitrogen in rice cultivation in the long term, which not only leads to an increase in rice grains, but also increases soil fertility with nitrogen in the surface and subsurface layers of the soil. - The way the results are presented and discussions is clear.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
