

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_91009
Title of the Manuscript:	Influence of different concentrations of Jeevamrutha on growth, yield and quality parameters of Chilli (Capsicum annum L.)
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The result of the present study are only of one year. Thus, it needs to be replicated one more season and pooled analysis to be done to see the real effect of this formulation. It is not clear how the authors have recorded colour of fruit. If this is by colour chart then can we use them to calculate CV.	
Minor REVISION comments	The paper need to be rewritten giving some more information about results. The probable reason of increase in yield may be highlighted.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
