

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_89370
Title of the Manuscript:	Evaluation of salinity resistance of amaranth (<i>Amaranthus cruentus</i> L.) mutant lines selected in Benin Republic
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The area under salinity in that country and amaranthus area and possibility area to be increased using salt tolerant variety may be mentioned in introduction. The photo not typically reflect the table value. Slight high difference only observed in 200mM concentration.	
Minor REVISION comments	The genetic control and selection method may be included in discussion. Among the studied character which character to be considered as selection criteria for more appropriate selection may be mentioned in discussion. Clear idea about selected lines not only donor may be included in conclusion part	
Optional/General comments	Good effort and needy reseach. The discussion part may be strengthened to justify this study	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
