

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Plant &amp; Soil Science</a>
Manuscript Number:	Ms_IJPSS_89817
Title of the Manuscript:	Bioefficacy of insecticidal nematodes against stored grain pests-an overview
Type of the Article	Review Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ul style="list-style-type: none"> <li>The introduction and important stored grain pests didn't have any references.</li> <li>The information showed in the section "important stored grain pests" doesn't have sense, all this information can be displayed in a single table showing the stored grains, their pests, the traditional control and the biologic alternatives with references and then discussed in the same section.</li> <li>A section of the life cycle of EPNs should be great.</li> <li>A section of the most important families of EPNs and successful cases of the EPNs in biologic control should be great.</li> <li>When you used an abbreviation like EPNs, it's not necessary keep mentioned the meaning of the abbreviation just use it.</li> <li>The information of the first paragraph "Utilization of entomopathogenic nematodes against stored grain pests" what's it meaning? Most of the information of this section can be summary in a table showing the different species of EPNs, the pest than control and the stored seed than can protect, the doses and if it's using as a commercial product.</li> <li>Any perspectives and challenges for the use of EPNs in stored seeds should be appreciated</li> </ul>	
<b>Minor</b> REVISION comments	<p>In section "Entomopathogenic nematodes (EPNs)" first line change Are the potential.</p> <p>In the same section mentioned that "in beetle species EPNs are more effective in larval stage than in adults" is that correct only for beetle?</p> <p>Some review of the grammar and "style" correction should be great.</p>	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
