

**Editor's Comment:**

- Title of the research study has been given as correlation and path analysis but in the text it has been written about variability, heritability, GA & GA as mean etc., should be deleted or the title as to be changed accordingly
- Lot of spelling mistakes, grammatical mistakes with poor sentence formation which are to be rectified and the whole article has to be restructured
- Latest literatures are to be quoted
- All the chapters must be written elaborately
- The articles available online on correlation and path analysis may be referred and resubmitted.
