PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The study pertains to a relevant topic. Although the manuscript is well written and conceptualized, some modifications are needed. For example, the title needs a correction as suggested in the annotated version of the manuscript. Some minor modifications in the abstract are also needed. The study rationale should be made stronger. The reasons for conducting the study should be explicitly mentioned and their relevance should be established here. Psychometric properties (reliability etc) and example items should be added with each instrument. Moreover, measures may be a better alternative for instruments. Implications and future directions may be added at the end.	
Minor REVISION comments	Please add note at the beginning in this and other tables. Also correct table titles.	
Optional/General comments	Language editing is recommended throughout the manuscript.	

PART 2:
