Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljemt.com/index.php/JEMT/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The abstract is above average and captured the essential elements of the study in its précis form. The author clearly identified the gap and justification for the study. However, the study lacks empirical review of related studies that is very important in comparative analysis. Even though it's a green area of research, there are sizable volumes of literatures therein and it is therefore suggested that more review of related literatures should be carried out. Statement of specific objectives or hypothesis is vital. This will assist the author in linking and reconciling the conclusion of findings with stated objectives/hypothesis	
<b>Minor</b> REVISION comments	The organization of the paper needs improvement with standard of English language used	
<b>Optional/General</b> comments	The paper reviewed is generally above average in performance and therefore recommended for publication after minor correction observed	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
