PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The presented manuscript takes up an important and current topic. In research task #1, the term "hype trading" is declared. However, this term is never used in the conclusions. Research task #3 states "Shedding light on the most important effects that these behaviors are likely to have on the performance indicators of the Iraqi Stock Exchange". However, the Iraqi Stock Exchange is not directly mentioned in the conclusions. It is desirable to reveal the results of the author's research in more detail. I recommend that it is necessary to adjust the goals and conclusions of the manuscript.	
Minor REVISION comments	Reference 1 (p. 29-30) - it is not entirely clear which work and which authors are meant. In addition to M. Friedman (1953), are other authors also listed? Please clarify. On p. 6, the author refers to Bageli, 2006. However, such an author is not listed in the references On p. 12 the source is indicated (Hartmann & et.al, 2018, 1-24). And the references 11 indicate Hartmann, Carolina, Bughof, Hans-peter, & marc Mehlhorn, 2006. It is desirable to specify which year of publication the author means. The first author in reference 2 on pages (p. 9, 12, 30) is listed as Alfani, Simon. In the publication linked [https://www.tandfonline.com/doi/full/10.1080/00036846.2020.1763245?scroll=top&needAccess=true] this author is listed as Alfonso, Simon)	
Optional/General comments	It is desirable to list all the methods used by the researcher in the abstract. It is worth checking the design of links (there are minor errors). Page number 5 shows different fonts (perhaps this is the result of a conflict between different versions of Word).
