PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Despite the application of linear Regression and ARIMA Models for Electricity Demand Forecasting is not new, its application in the context of West Africa is new and interesting. Therefore, the novel contribution of the paper must be highlighted in the introduction. Furthermore, the result and discussion section, and conclusion are very basic. Those need to be modified to convey the research contribution more clearly.	
Minor REVISION comments	Typos and grammatical errors	
Optional/General comments		

PART 2:
