

## Review Form 1.6

Journal Name:	<a href="#">Journal of Engineering Research and Reports</a>
Manuscript Number:	Ms_JERR_90693
Title of the Manuscript:	Analysis of planetary gear transmission characteristics based on ANSYS
Type of the Article	Short Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljerr.com/index.php/JERR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<b>Compulsory</b> REVISION comments  In this article the authors described the Analysis of planetary gear transmission characteristics based on ANSYS  Some comments on the manuscript: 1. The abbreviation for most the chemical structure not clear, please check all the abbreviations in the manuscript. 2. The text needs careful revision with respect to grammar and format (spaces, coma, ...etc.), the style of the journal must be checked with respect of key words. 3. The authors should increase the references with number of recants references and update. 4. In conclusion, this paper can be accepted with minor revision.	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
