

Review Form 1.6

Journal Name:	Journal of Materials Science Research and Reviews
Manuscript Number:	Ms_JMSRR_90818
Title of the Manuscript:	EVALUATION AND VALORIZATION OF PYROLYTIC CHAR FROM COMMINGLED WASTE PLASTICS
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. The work has no focus towards scientific discovery.2. It can be considered only if it includes BET surface area analysis and surface morphology Studites like SEM or TEM.3. Data reported in this regard is already published by several other researchers.4. The char production does not employ a standard scientific instrument such as muffle furnace or Thermogravimetric analyser where temperature control is possible.5. Even under the same conditions, the reported data cannot be reproduced. <p>The article needs major revisions before it can be published.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> NO
