I send Peer review information_2022_JOCAMR_90436: minor revision. The authors have not made all the corrections indicated by the reviewers

Accepted until the authors make the corrections indicated by the reviewers

1) Histopathology images need approximate measurement of aberrations/impact "this correction has not been Pending made"

2) Images need to be arranged in continuously in six images per page "this correction has not been made"

3) Conclusion; Too shallow, it needs impact of this work and what are all the limitations of this study "The conclusion is the same in both manuscripts" Rev_JOCAMR_90436_Sar

1) The weight of animals in inclusion criteria is mentioned as 150-200 g whereas in next paragraph of experiment it has been mentioned that, "average weight of 140 g was procured "this correction has not been made"

2) But in the reported study 21 days is mentioned as acute which is not as per the accepted scientific facts "this correction has not been made"

Accepted until the authors make the corrections indicated by the reviewers.
