

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_89757
Title of the Manuscript:	Nanoparticles Loaded Mucoadhesive Buccal Patches - Review
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Compulsory REVISION is required. Poor body text with respect to title of the manuscript. Abstract is required to improve with indication of conclusion. Many syntaxes error in body text. There are many evaluation parameters of buccal patches and nanoparticles containing buccal patches such as official and unofficial. Figure 2 to 5 are there but there is no any indication of such figures in the body text of entire manuscript. Add important portion regarding the types of components for nanoparticles loaded mucoadhesive buccal patches formulation along with new techniques. Reference work is required to improve in order to justify the method of preparation of such drug delivery systems, factors required to consider during formulation, commercial status, important evaluations with respect to types of buccal patches and reported patents on the nanoparticles loaded mucoadhesive buccal patches. Conclusion is required to improve in order to make it attentive to all the reader of Journal of Pharmaceutical Research International. Maintain uniformity in writing references using any one reference style as per author instruction of the Journal of Pharmaceutical Research International in order to maintain overall quality of this review article. Hence major REVISION is essential. Add other references of the same area of topic with consideration of new images in order to make it attentive with respect to industrial as well as regulatory requirements of the same drug delivery systems.	
<u>Minor</u> REVISION comments	Improve the language and minimize the grammatical mistakes. Add the information of research work done on the types of mucoadhesive buccal patches using nanoparticle formulation of various molecules.	
<u>Optional/General</u> comments	Author instructions are required to follow in order to maintain overall quality of the article for the Journal of Pharmaceutical Research International.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
