PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Extensive language editing is need, ascells ma not, like words make it difficult to understand. Authors tried to write about kinetics of nanocomplexes, but more data must be included to complete the topic. Citation of figures and tables within text at proper place is required. It is advised to cite references in table as per the data source. Clinical application which is main theme of paper is missing in text, theses points with suitable examples may be included.	
Minor REVISION comments	Authors did a limited literature review paper could be presented better by adding more data from relevant sources.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
