

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_91122
Title of the Manuscript:	Comparative phytochemical analysis and antiradical activity of five plants used for the treatment of type 2 diabetes in Benin
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalipri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Need to re-check the way of writing, a little bit confusing (highlighted in the main text). It seems this study did not mention how many batches of leaves were collected in the Material Section. There was no Statistical Analysis used in this study in the Methods Section, even in the bar chart (Figure 2 and 3) and graph (Figure 4).	
Minor REVISION comments	Need to re-check the English grammar (Example: should be written in past tense) (highlighted in the main text)	
Optional/General comments	This study is important to determine the phytochemical content and antiradical activity of several plants in Benin that have potential to use for the treatment of type-2 diabetes.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
