

## Review Form 1.6

Journal Name:	<a href="#">Journal of Complementary and Alternative Medical Research</a>
Manuscript Number:	Ms_JOCAMR_70491
Title of the Manuscript:	IN-VIVO ANTIBACTERIAL AND SYNERGETIC EFFECT OF GARLIC (ALLIUM SATIVUM LINN) AND WATER LILIES (NYMPHAE LOTUS LINN) EXTRACTS ON MULTI-DRUG RESISTANT ENTERIC BACTERIA
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>In this manuscript the authors investigated the antibacterial and synergetic effect of <i>allium sativum</i> and <i>nymphae lotus</i> extracts on multi-drug resistant enteric bacteria. This subject is of interest and experimental design seems appropriated.</p> <p><b>Major revisions:</b></p> <ol style="list-style-type: none"> <li>1. Results section: Individual extracts effects should be included in the table 1.</li> <li>2. Substitute Plate 2, Plate 7, Plate 13 and Plate 14 with a better resolution one.</li> <li>3. Microphotographs will improve with the addition of higher magnification insets.</li> <li>4. Some microphotograph (see Plate 6 for example) appears enlarged compared to the others. Please include scale bar.</li> </ol> <p><b>Other revisions:</b></p> <ol style="list-style-type: none"> <li>1. Material and Methods section: Although a reference has been cited (Omoya and Ajayi (2016)) for the antibacterial effect of the combination of ethanol extract of <i>N. lotus</i> root and water extract of <i>A. sativum</i> at ratio 1:1 to enteric bacterial isolates, it would be useful to add a brief description.</li> <li>2. Please specify how different doses of extract were administered to each group of animals.</li> </ol>	
<b>Minor</b> REVISION comments	<p>Tables will be clearer if all borders are evidenced</p> <p>The manuscript will benefit from a comprehensive formatting review</p> <p>Please substitute Hematocilin with Hematoxylin</p>	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
