PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper concerns an interesting theme and illustrates a survey that should also be carried out in other places and in other countries. The method by which the survey is conducted is correct and the presentation of the results is very good. However, the survey is incomplete because there is no study of the relationship between the behavior of farmers, not always in tune with the recommendations, and the productivity of the lands.	
Minor REVISION comments		
Optional/General comments
