<b>Compulsory</b> REVISION comments	The manuscript " <i>Effects Of Seed Provenance On Plant Establishment Index, Seedling Vigor Index And Speed Of Germination Of Physic Nut (Jatropha Curcas L.) In Sokoto State, Nigeria</i> " has a great scientific impact in agricultural aspects. The experimental design was wisely chosen. Authors had conducted the experiment using standard physiological, morphological parameters & agronomic practice and the data obtained analysed statistically which is in agreement with the observed results. Literature surveys done by the authors are also appropriate and recent.
