

EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>a) In the abstract: The content of the abstract contains general information that does not encourage a reader to keep on reading the article</p> <p>b) In the introduction: The word pollution appeared once in the whole manuscript. No data to support any pollution induced by acid-base indicators.</p> <p>c) Th gap of research is too general and needs supportive data.</p>	<p>I have edited the Abstract</p> <p>I have removed the word "pollution"</p> <p>Have done other corrections. thanks</p>
