PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	<p>The research is weak, but valid for publication, because the research did not include any statistical analysis, just a descriptive analysis, so we recommend the following:</p> <ul style="list-style-type: none">- Developing a time series for employment opportunities in rural India during the last ten years.- Analyzing data and reviewing results - to reach the growth rate of employment in the countryside, and its developments.- Building a multivariate model to identify the most important variables affecting rural employment, and thus the research reaches a better description and application results.- The researcher must make these adjustments - so that the research becomes more efficient.	

PART 2:
