PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>he introduction should have been followed by a relevant literature review which would have oriented the readers/audience to the problems and issues related to the subject under study. In the absence of it, the article seems to lack context.</p> <p>The insights and understanding derived from the literature reviews, the data gap could have been identified, and the logic of conducting the study and the methodology adopted could have been justified and identified.</p> <p>The paper contains lots of grammatical mistakes, especially in determinants and punctuation. Using test editing software may solve the problem.</p> <p>The technical part of the article seems logical and sound. However, the sampling or the entry process of the respondents has not been stated adequately.</p> <p>If the author makes these changes, the paper may be accepted for publication.</p>	
Minor REVISION comments	Nil	
Optional/General comments	Nil
