

**Editor's Comment:**

Moderate revision is necessary to correct the following flaws prior to paper acceptance:

1. Add India to the paper title.
2. Citation such as "(Lengai et al. (2020))" may be simplified to "(Lengai et al. 2020)".
3. Why include reference for the last sentence of the Introduction section. This is an objective statement of this study.
4. Please number all equation listed in the text, even though there is only one.
5. Please unify the use of "%" and "per cent".
6. Choose only one to illustrate the same dataset, either in the form of figure or table, not both. This may be waste of space.
