### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajcrmh.com/index.php/AJCRMH/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Mention the clinical condition of the patient after the treatment to confirm that it was reversible encephalopathy. And if evaluated with MRI at follow up, please mention that as well.	
<b>Minor</b> REVISION comments	If the time of convulsion is mentioned, the time of presentation and USG assessment needs to be mentioned to rule out delay in management and possibly preventable foetal death.	
<b>Optional/General</b> comments	In introduction, the author should include the incidence of association of PRES and HELLP syndrome. Details of previous miscarriage should be elaborated/investigated more in the scenario of IUFD in current pregnancy.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
