PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. Please explain what is the technique that you used to identify every species of phytoplankton group?2. Please state how long you keep the samples in a refrigerator before you run an experiment?3. During sampling, before bringing the samples to the lab to store in a refrigerator, did you put the water sample were filled into the bottles in an ice box containing ice pack? If you did it, please mention in the method.	
Minor REVISION comments	<ol style="list-style-type: none">1. In discussion, you mention only the site effected the result, but actually the weather condition (during collecting samples, because you also collect the samples in rainy season) also effected the result. Besides, the instrument as well as effected the result. Please add this points in your discussion.	
Optional/General comments	<ol style="list-style-type: none">1. Please state a width of the study area and the colour of ponds, for example, green, light green, brown or so on.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
