<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The issues of violence against women are still overlooked by many scholars. It is appreciable. However, the paper did not clearly put the parameters of violence against women (VAW) using ecological model or WHO standard.</p> <p>The title is too bold and difficult to address the two big concepts. Social development is too big issues and it is difficult to address with VAW.</p> <p>The structure is good. And It lacks grammatical and technical errors under the main contents of the manuscript.</p> <p>Yeah. It is scientifically written. It needs reframe on the title and the contents of the manuscript to address the correlation between forms of VAW and Social development indicators.</p> <p>The reference should follow the current APA 7 edition. Write it in Alphaphetical orders, and remove the out-dated reference (use the data after 2015) For instance: Midgley, James (1995</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Some of the contents should be rewrite again and edited by the English professionals to increase the readability of the manuscript. The repetitions of words should be avoided to attract the readers.</p>	
<p>Optional/General comments</p>	<p>Generally, it needs thorough edition and revision. The adjustment of elements in VAW (such as what is physical violence components, sexual violence components, psychological and economic violence? How can they measure? How it is assessed the scale as it is good, medium, and high? Are elements of VAW is measurable with yes or no? Social development has a parameter to scale up? What is the theoretical and conceptual framework of this manuscript? It should be incorporated in the manuscript.</p>
