PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This article reviews the utilization of fish processing industrial waste specifically fish scales. It can open people's insight regarding environmental issues and value-added products from the offal. However, information regarding waste data is still needed, especially wasted fish scales that pollute the environment and requires a deeper search of the literature to reveal the characteristics of the final product which can be obtained from various research results. It takes at least 3000 more words to reach the minimum number of words required for writing in the form of a review article. Several sentences in papers need to be rephrased and should include the references.	
Minor REVISION comments		
Optional/General comments	Review papers require a length of 5000-9000 words and 50 references at least. This papers are still very lacking in literature	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
