PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1.TENS works well for mid shaft femur fracture but not mentioned regarding proximal third diaphyseal fracture , malreduction is commonly faced by surgeon at this zone and we won't get maximum convexity curve by two nails 2.Nail length judgement not mentioned 3. Distal nail tip cut level to be elaborated and how much nail to keep extra length.	
Minor REVISION comments	<ol style="list-style-type: none">1. Duration of injury to be mentioned in inclusion criteria for case selection2. Patient unfit for surgery is mentioned two times in exclusion criteria3. Kindly look also in result & discuss- one sentence again repeated twice- the nail protrusion.....	
Optional/General comments	This study is good and informative always in paediatrics fixation.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
