

Review Form 1.6

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_94886
Title of the Manuscript:	Likelihood Ratio Search Procedure for Optimum Number of States in a Hidden Markov Manpower Model
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajpas.com/index.php/AJPAS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper is well structured and clear in its presentation of ideas. The sections and subsections follow a logical chain of exposition of the subject, and it seems to me that all the objectives were all achieved. A good job, in general.	
Minor REVISION comments	I believe the article will still go through a final formatting phase, but I noticed that the numbering of many formulas is not properly aligned. At the same time, various formulas are intruding beyond the margins of the page. In chapter 5, (...) probabilities of the manpower ersonnels making (...). Wouldn't it be "personnels"?	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
