General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajpr.com/index.php/AJPR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)

Review Form 1.6

Compulsory REVISION comments	<p>It is preferable to include the type of study in the title.</p> <p>Key words are typically MeSH terms, and they are usually not in the title. It is better to be in alphabetical order.</p> <p>It is better to cut short the introduction.</p> <p>It is preferable to cite the previous study for sample size.</p> <p>"Aim, study, and design." It's better to write them as paragraphs, unlike subheadings.</p> <p>Please mention the different statistical methods in the appropriate tables.</p> <p>Unlike a thesis, literature is better cut short as an article.</p> <p>Image references are needed if possible</p>	
Minor REVISION comments	Overall structure and flow	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
