PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>comment on the manuscript</p> <p>The theories chosen for understanding the study are fine and sufficient. However, authors should rewrite the manuscript. In addition, the first remark for the manuscript is that it lacks a clear objective, authors just showing theoretical calculation and only a few descriptions which are not sufficient for a journal publication. Author must be targeted on a scientific question or achievement.</p> <p>Manuscript was not comparing this result with previous works' lack of much information. The manuscript is a good start for a paper but not sufficient. It could still become a good paper with minor changes and revisions.</p> <p>Please accept this manuscript after minor revision.</p> <p>Major comments:</p> <ol style="list-style-type: none"> 1. Several incomplete sentences were noticed. 2. Manuscript should be written in a standard flow and format, good to organize it. 3. Should check spelling and grammatical errors. 4. Add more new references
