

Editor's Comment:

Based on the peer review reports and the revised manuscript, the paper titled "**Selection of the Best Educational Application Based On Android with SMART Method (Simple Multi Attribute Rating Technique)**"

appears to be fine. In the title, the acronym can be removed and placed in abstract.

The author is requested to go through

1. Section 3.1 and correct the sentences to improve the quality of paper.

2. In Fig 3, the words are not spelled in English.

The paper may be accepted for publication after the author goes through the above corrections.
