### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrn.com/index.php/AJRNH/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	I suggest adding information about the limitations found for the development of the study. It will serve as a basis for future published works on the subject. This also enriches information that is sometimes linked to non-conformities in the conduct of the work, and clarifies for the lay author any doubts that may arise during the reading of the manuscript.	
<b>Minor</b> REVISION comments	Check more recent works published on the subject, this would also strengthen the discussion, which is relatively shallow.	
<b>Optional/General</b> comments	I suggest making it clearer that the objective of the work was achieved in the reported conclusion  <b>I suggest doing a little revision in the text to improve the reading and composition of the textual structure, the material has good quality and potential for publication.</b>  <b>My recommendation is: Accept</b>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
