

Review Form 1.6

| | |
|--------------------------|--|
| Journal Name: | Asian Research Journal of Mathematics |
| Manuscript Number: | Ms_ARJOM_94745 |
| Title of the Manuscript: | Domination Defect in the Edge Corona of Graphs |
| Type of the Article | Original Research Article |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalarjom.com/index.php/ARJOM/editorial-policy>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| Compulsory REVISION comments The Abstract should begin with: Given a graph $G=(V(G), E(G))$, a nonempty set ... | In the very beginning, the reader should be informed that a graph is in the question (and what $V(G)$ and other parameters relate to). | |
| Minor REVISION comments Proof of Lemma 2.6: "The reasoning of the proof ..." should be "The reasoning for the proof ..." | I think that "for" is more appropriate than "of" here. | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
