PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Some of the statements are lacks in supporting reference. I highly advice the author to give at least one (1) supporting reference for every scientific justification statement in the manuscript. This will bring more credentials to this manuscript as well as to the original researchers.	
Minor REVISION comments	Some of the subtopic/subsection numberings are inconsistent. Please check the numbering flow and put the subtopic/subsection into the proper points.	
Optional/General comments	This manuscript gives a fundamental finding to a local area. Although this manuscript can be discussed more if the author(s) include more data information such as the weather and temperature during the sampling period, more valuable information can be extracted. However, this manuscript can contribute for future research in the area.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
