

Review Form 1.6

Journal Name:	Cardiology and Angiology: An International Journal
Manuscript Number:	Ms_CA_94265
Title of the Manuscript:	ACUTE AORTIC DISSECTION MASQUERADING A RARE TYPE OF CONGENITAL BICUSPID AORTIC (CASE REPORT)
Type of the Article	Case study

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	[Nota 1] As the morphological characteristics of AVs are usually assessed by transthoracic echocardiography (TTE) or transesophageal echocardiography (TEE), however, the difference in the diagnostic ability of these imaging modalities to detect TAV remains unclear (TAKEDA et al. 2013). [Nota 2] It is important to note a high incidence of post-implantation RA, which appears to be mitigated by sizing the transcatheter aortic valve TAV based on MSCT. Given the suboptimal echocardiographic results, further study is needed to evaluate long-term efficacy.	
Minor REVISION comments	[Note 3] The results corroborate recent work by: TAKAGI et al., 2019.	
Optional/General comments	[Nota 4] This case report study may contribute to the management of young and symptomatic patients with acute chest pain and a sequence of clinical, graphic and imaging exams prescribed for emergency diagnosis.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
