General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalcjust.com/index.php/CJAST/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">- Improve the quality of the figures by increasing visibility, like bolding the fonts- Avoid the use of both abbreviations and long term writing continuously once it is defined at the beginning- Repeated use of brackets decreased the quality of the paper. Try to minimize brackets- Avoid repeated use of the word "in this study" as the whole manuscript is discussing about this study- In general avoid words that don't add value to the paper	
Minor REVISION comments		
Optional/General comments	The manuscript is well done regarding the methods, results and discussions. It needs only editorial works to minimize unnecessary words and phrases. Technically it is interesting.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
