General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The author needs to come out clearly and inform the reader that all the information provided was secondary data but not primary data. There is need to thoroughly edit the work to correct some sentences that are not clear. These are highlighted in the manuscript. The mode of citation needs to be carefully done. Some statements do not make sense when a sentence begins with a numerical number other than a name. These are highlighted in the manuscript. The methodology needs to change, now that the primary data was not the one used but data used in the study was already collected. Recommendations should be stated basing on the results obtained.	
Minor REVISION comments	Include ways how data was collected in the abstract. Pay attention for the highlighted information for the revision.	
Optional/General comments	NONE	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
