PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In 2.2.1 (Data Collection) part, please write the full name of ASECNA and CCAA (not only in abbreviation).	
Minor REVISION comments	<ol style="list-style-type: none"> At the end of Introduction part, please add the main purpose of this research. For example : therefore, this research will discuss about.....and will give benefit in the field of..... You mention Sen's Slope method in 2.2.2.4. Therefore, please add the word of the sen slope method on these sentences (at 2.2.2 part) : The analysis was based on statistical tools such as SPSS Statistics version 20 and XLSTAT. The tests proposed by Pettitt, Buishand and Mann-Kendall were used. On 2.2.3 (Analysis of data homogeneity), what is fisher test and the welch's test? Please give the explanation if these tests are also important or give impact for this research. On Anomalies in mean temperature at the Ngaoundere (3.1.1), Garoua (3.2.1) and Maroua (3.3.1), please give an explanation of what is hot years mean or the limit of temperature values that indicate hot years. 	
Optional/General comments	In my opinion, it is better using the latest or newest references, for example 5-8 years back.
