General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The study generated interesting findings that were however not explained to highlight the study's new insights. As you summarise the study findings, it is expected of you to go further and generate meanings for the results. This is your opportunity to proclaim new insights. Therefore, for each relationship established, go on to explain its significance in scientific and real-life situations. In other words, strengthen your discussion component.	
Minor REVISION comments	Attend to grammatical and punctuation errors and omissions, some of which I corrected in the manuscript.	
Optional/General comments	A good study with great relevance for economic productivity and human wellbeing in face of the ever-changing environment.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
