PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Overall idea of this research is excellent, however there are some items need to elaborate</p> <p>INTRODUCTION: need to provide more supporting evidence for convincing that BR, SA, and GA3 have been proven very useful for growing plants (not only cucumber).</p> <p>METHOD: not explained clearly, experimental design was not stated, replication of analysis was not mentions ,</p> <p>RESULT and DISCUSSION Results should be presented together with the statistical analysis, I could not find this matter . Discussion on findings should be based on statistical analysisNeed deeper discussion on the findings, explain the mechanism of how BR , SA, GA3 on plants/ cucumber</p> <p>REFERENCES cited : need to provide some more references primarily on those growth regulators used</p> <p>CONCLUSION can not be found</p>	
Minor REVISION comments	Elaboration on presenting the data	
Optional/General comments	This manuscript can be acceptor after revision, complete review is attached	

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
